

Assignment - 04

Name : Ch. Naga Chandana Priya RegNo : 21BCE9235

Course : Mobile Application Development

Mobile No : 7036295192

Mail : Priya.21bce9235@vitapstudent.ac.in

Question :

List of Resturants and it menu

MainActivity.kt :

```
package com.example.listofresturantspage
```

```
import android.os.Build
```

```
import android.os.Bundle
```

```
import androidx.activity.ComponentActivity
```

```
import androidx.activity.compose.setContent
```

```
import androidx.annotation.RequiresApi
```

```
import androidx.compose.runtime.Composable
```

```
import androidx.navigation.compose.NavHost
```

```
import androidx.navigation.compose.composable
```

```
import androidx.navigation.compose.rememberNavController
```

```
class MainActivity : ComponentActivity() {
```

```
    @RequiresApi(Build.VERSION_CODES.O)
```

```
    override fun onCreate(savedInstanceState: Bundle?) {
```

```
        super.onCreate(savedInstanceState)
```

```
        setContent {
```

```
            MyApp()
```

```

    }
}
}

```

```

@Composable
fun MyApp(){
    val navController = rememberNavController()

    NavHost(
        navController = navController,
        startDestination = "screen3"
    ){
        composable("screen3"){screen3(navController)}
        composable("screen1"){screen1(navController)}
        composable("screen2"){screen2(navController)}
        composable("screen4"){screen4(navController)}
        composable("screen5"){screen5(navController)}
    }
}

```

loginpage.kt :

```

package com.example.listofrestaurantspage
